

Indian Institute of technology, Guwahati
Department of Computer Science and Engineering
Data Structure Lab: (CS210)

Instructions to the Students:

Submission Instructions:

- Name of every file should be <Roll_No>_<Assignment_no>_<Question_No>.c. eg. 150101086_1_1.c, 150101086_1_2.c and so on.
- Name of the folder you upload should be <Roll_No> eg. 154101086.
- Please do not upload files like a.out, desktop.ini,etc. If there are 'N' questions in assignment, there must be exactly 'N' ".c" or ".cpp" files in the folder. Use only zip to compress the folder to be uploaded.
- You will be awarded ZERO mark if the above rules are violated.
- Please note that you will not be able to submit once the dead line is over. All deadlines are hard. They will not be extended at any circumstances. Do not wait for last minute submission.

Academic Integrity:

- You must solve all programming assignments entirely on your own.
- This means you must protect your code from access by others. Do not leave it where others can find it. Do not give it to someone for submission on your behalf. Do no use any fragment of code obtained online or from someone else. The only legitimate code is that you thought of yourself and typed in by hand to a simple text editor. Falsifying program output or results is cheating also.
- Each time students who are caught cheating **will be given a 0 and a letter grade penalty. More than two violations will result in F grade in the Lab.** In case of copy from friends, both source and destination will be penalized.
- Code analysis tools may be used on every assignment to detect cases of cheating.
