April 30, 2005

Paper ID : ISMOT-332
Paper Title : INTEGRATION OF 2-D PBG PATTERNS IN GROUND AND SUBSTRATE WIT
THE ENHANCED PERFORMANCE
Paper Author(s): R. S. Kshetrimayum, A. V. Sathanur and K. J. Vinoy

Dear Professor Rakhesh Singh Kshetrimayum,

This is to notify you that your paper submitted for ISMOT2005 has been accepted for presentation at the Symposium. Attached are a letter of acceptance for your paper and the visa information for your visiting Japan.

I am pleased to inform you that the ISMOT2005 technical program committee nominated you as one of the candidates who are offered our financial support program. If you are going to participate in the symposium and make your pre-registration under this support program, you will receive 120,000 JPY as a total of your local costs for five days in Fukuoka and your registration fee. Please let me know, by April 20, 2005, your intention with regard to the support program. If you wish to receive the financial support, you will be provided a special registration procedure different from the regular one.

Please read carefully the attached visa information. I would like to advise you to begin the application procedure as early as possible, if you need a visa to enter in Japan.

The Book of Abstract, Online Proceedings, and CD-ROM Proceedings require high quality display of figures for both the printed pages and the screen of web. You will be requested later to improve the quality if the figures contained in your manuscript have deficiencies.

Looking forward to meeting you at ISMOT2005 in Fukuoka.

Sincerely,

Kiyotoshi Yasumoto
Chair, Technical Program Committee
