

IIT GUWAHATI ALUM RECEIVES EXCELLENT YOUNG TALENT AWARD

Dr. Ankit Garg, an alum of IIT Guwahati, is awarded with "*Excellent Young Talent Award*" from Shantou University (STU). He was the only foreigner selected among all awardees.

The award is based on achievements in research and service in last 3 years. This includes International awards, International Editorial positions, National/International Projects, Patents and Internationalization.

Some of his achievements include International Telford Premium prize from British Civil Engineers Association for publication in ICE (UK). The research was conducted jointly with scholars from IIT Guwahati (IITG). He has been also awarded National Science Foundation Project (NSFC) in China and an International project (i.e., Academic melting pot program) from King Mongkut's Institute of Technology, Thailand. He also served as Guest Editors of four reputed Journals (ASCE International Journal of Hazardous and Toxic Materials, International Journal of Damage Mechanics, International Journal of Geo-synthetics and Ground Engineering Infrastructure, International Journal of Biomass Conversion and Bio-refinery, Springer).

It is worth mentioning that as an IITG alumnus, he has assisted in establishing 2-way research-based exchanges between STU and IITG, that has led to enhanced joint research achievements. He is particularly grateful to Alumni and External Relations (AER) of IIT Guwahati for Internationalization.
