About CRSI

The Chemical Research Society of India (CRSI) was established in 1999 as part of the 50th anniversary celebrations of the country's independence. Currently, CRSI represents more than 2300 lifetime members, who participate in the study, practice, teaching and promotion of Chemistry. The main objectives of the CRSI are to recognize, promote and foster talent in Chemistry and Chemical Sciences and to improve the quality of Chemical Education at all levels. The CRSI organizes conferences, seminars, workshops, symposia and other related programs to facilitate and promote research in all branches of Chemistry.

About the Symposia

The 27thCRSI National Symposium in Chemistry (NSC-27) is scheduled to be held in Indian Institute of Technology (IIT) Guwahati during April 2-4, 2021 under the auspices of the Chemical Research Society of India (CRSI). The organizing committee at IIT Guwahati takes the pleasure of inviting you to attend this symposium. The symposium includes medal lectures, poster presentations and special lectures by eminent chemists and scientists working in the allied areas of chemistry from India and abroad. The National Symposium in Chemistry (NSC) provides a platform for scientists, teachers and students to discuss the recent developments in chemical sciences across the sub-disciplines. In addition, NSC creates opportunities to exchange ideas and to build long lasting collaborations in the frontier areas of chemistry and its allied disciplines. We look forward to welcoming you at IIT Guwahati.

Registration

The participants are required to complete online registration and pay the registration fee via the online portal. The registration fee is non-refundable and it includes full participation, conference kit, lunch/dinner/refreshments.

Accommodation

Participants will be accommodated in the Institute Guest House and Student's Hostels (separate for boys and girls) of IIT Guwahati within the campus. Guwahati city has plenty of budget hotels including four-star hotels. Participants who wish to continue their stay after the conference may book the hotels in the city in advance.

Indian Institute of Technology Guwahatiis the sixth member of the IIT fraternity and was established in 1994. The Department of Chemistry, one of the oldest in the institute, started functioning since 1995. The campus is located on 285 hectares plot of land on the north bank of the river Brahmaputra around 20 km from the heart of the city. With the majestic Brahmaputra on one side, and with hills and vast open spaces on other sides, the campus provides an ideal setting for learning. Guwahati city is gateway to beautiful north eastern region of the country and linked with all major cities by rail, road and air.

The temperature in Guwahati in the month of April varies from 25° C to 30° C. Buses, auto-rickshaws and taxis are available from Guwahati City to the IIT Guwahati Campus. Institute buses are available at frequent intervals from Pan Bazaar (about ½ kms away from Guwahati Railway Station).

About the Department of Chemistry, IIT Guwahati

Department of Chemistry, Indian Institute of Technology Guwahati is one of the globally recognized, emerging and leading department in science and technology with a growing list of accolades earned nationally and internationally. The Department started in 1995, covers all the major areas of Chemistry, viz. inorganic, organic, physical and theoretical chemistry.
