**ADMISSION
OPENED!
FOR JULY
2022**

M.TECH IN

ROBOTICS AND ARTIFICIAL INTELLIGENCE

ABOUT PROGRAM

Robotics and Artificial Intelligence are major enablers of Industry 4.0. It is a blend of almost all the engineering streams and science. The new study program initiated by the Centre for Intelligent Cyber-Physical Systems (CICPS) is designed to address advanced engineering topics and help to meet the growing need of industries. Graduates will be able to use scientific methods for solving complex problems in both research and practice, particularly for industrial automation to improve productivity significantly. The program offers several optional modules in the field of Robotics and Artificial Intelligence (<https://www.iitg.ac.in/cicps/academic.html>).

SPONSORED CANDIDATES

(to be filled by employees from R&D, Academic organizations and Industry)
TOTAL SEATS: 20 (Both full time and part time options are there)

TUTION FEE: RS. 25000 PER SEMESTER
For more details : shorturl.at/mAN04

DURATION: 4 SEMESTERS
5 CORE + 5 ELECTIVE + PROJECT
