### (Professional Skill Builder Program)

#### Introduction

#### About E&ICT Academy IIT Guwahati

As an initiative of the Ministry of Electronics & Information Technology (MeitY), the Academy was set up at IIT Guwahati under the scheme of "Financial Assistance for Setting up Electronics and ICT Academies". On 2015 the project started at IIT Guwahati and the Academy was inaugurated by Hon'ble Prime Minister Shri Narendra Modi on 19 January, 2016. The objective of the Academy is to provide skill training to the Faculty Members (Engineering & Non-engineering) in the area of recent trends in engineering & ICT application. The Academy is designing specialized modules for imparting quality training for enhancing employability and capacity building in the area of Electronics & ICT. In the past 7 years, the Academy has successfully conducted 350+ Faculty Development Programme through conventional classroom teaching and NKN virtual classroom mode in different institutes/Universities of North Eastern States in particular and a few in other states of India. Till date, the Academy has successfully trained 18000+ Faculty members. The Academy has also signed MoUs with Institutes/Universities for hosting the programs and for conducting hands-on sessions the Academy collaborated with Industries as Training/Industry Partners. The Academy is also offering online Advance Certification Courses in the area of Data Science, Artificial Intelligence & Machine Learning, Big Data, Cloud Computing, Full Stack, VLSI Design, and Management related courses and trained 2500+ graduates and working professionals. The Academy has also delivered training to Government officials from Assam Police and Indian Navy on Cyber Security & Forensics and Data Analytics & Sciences training 120+ officials.

#### About Pinnacle Design Arena

Working professional and final year students are eligible for our courses, a common enrollment test will be conducted online on the basis of evaluation of this examination students will be selected for online courses

#### Course: [Professional Certificate Program in AVGC \(Audio-Video Editing\)](#)

#### Program Overview:

The Executive Program in Audio-Visual Graphics and Animation (AVGC) is a cutting-edge educational experience designed for professionals seeking to master the art and science of creating captivating visual content. In today's dynamic digital landscape, the demand for engaging audio-visual graphics and animation is rapidly increasing across industries such as entertainment, advertising, gaming, education, and more. This program equips participants with the skills, tools, and insights needed to excel in this exciting Audio Video Editing field.

## Program Highlights:

**Comprehensive Curriculum:** The Comprehensive Curriculum in Audio-Video Editing is a meticulously designed program for individuals aspiring to excel in the field of post-production, where the magic of visual and auditory storytelling comes to life. In today's media-centric world, the ability to edit and manipulate audio and video content is a crucial skill across various industries, including film, television, advertising, digital media, and more. This program provides participants with an in-depth understanding of the technical and creative aspects of audio-video editing, enabling them to craft captivating narratives through precise manipulation of visuals and sound.

**Hands-on Projects:** Learning by doing is at the core of this program. Participants will engage in hands-on projects, working individually and collaboratively to create compelling content. These projects enable participants to apply theoretical concepts to real-world scenarios, honing their practical skills and building a strong portfolio.

**Industry Expert Faculty:** Our esteemed faculty comprises industry experts, renowned artists, animators, and professionals with extensive experience in AVGC. They will provide personalized guidance, mentorship, and insights into industry trends, ensuring participants receive relevant and up-to-date knowledge.

**State-of-the-Art Tools:** Participants will have access to the latest software and tools used in the AVGC industry, enabling them to experiment and create with the same tools professionals use to bring their visions to life.

**Networking Opportunities:** The program provides a platform for participants to connect and collaborate with fellow professionals, faculty members, and guest speakers. Networking opportunities include workshops, seminars, and industry events, fostering a vibrant community of like-minded individuals.

**Flexible Learning:** The program is designed to accommodate the busy schedules of working professionals. With a combination of in-person and online sessions, participants can balance their professional commitments while pursuing their passion for AVGC.

## Who Should Attend:

The Executive Program in AVGC is ideal for:

- Creative professionals looking to enhance their skills in graphics and animation.
- Marketing and advertising executives aiming to create visually impactful campaigns.
- Game designers and developers seeking to integrate stunning visuals into their projects.
- Educators interested in incorporating interactive and engaging visuals into their teaching methods.
- Multimedia professionals aiming to expand their expertise in the realm of audio-visual content.
