Welcome to ICPHD 2023

Sustainable and economic energy resources are the primary need for energy security. Hydrogen is a promising source of energy while petroleum dominates the present energy basket. The path of energy transition need to be in the frame of decarbonisation to meet stringent environmental regulations. With this aim, an International Conference on Petroleum, Hydrogen and Decarbonisation (ICPHD) 2023 is being jointly organized by the Department of Chemical Engineering, IIT Guwahati and IIT Guwahati Society of Petroleum Engineers (SPE) Student Chapter. The ICPHD 2023 will bring together students, researchers, industry leaders, innovators and policy makers to discuss technology, policy and strategy needed for sustainable petroleum production and energy transition. The conference will feature renowned keynote speakers from academia, industry, and policymaking bodies, offering their expertise and insights into the conference themes along with panel discussions and exhibitions, and will provide ample opportunities for networking.
