Please provide the following data.

Average, median, highest and lowest CTC offered in all central government funded institutions which includes all IITs and NITs for BTech course. Also provide the placement percent for them. The data should be provided for every individual branch and institution seperately. If the concerned authority doesn't have the data I would ask you to send the RTI to all the concerned institutions who can then answer the question seperately. I would also ask the authority who is providing the data to send it via speed post to the address mentioned above
